

Presented by St. Mary Medical Center
in partnership with the American
Stroke Association and the NAACP
of Bucks County.

Gospel Music Night

for Stroke
Awareness

Saturday
May 12,
2007
4 to 8 p.m.

This event is
intended to heighten
awareness of the
risk factors and
warning signs of
stroke, and educate
about early
intervention
to reduce deaths
and disability
caused by stroke.

Special Guests
Outstanding
Gospel Choirs

Stroke –

- Is a leading cause of death and disability
- Affects African Americans ages 35-54 4X more than Caucasians
- Nearly 80% of African Americans who suffer stroke die of complications
- Hispanics have strokes at younger ages than all other populations

**Stroke can be prevented and successfully
treated when RECOGNIZED IN TIME!**

Learn about the risk factors and
how to get help quickly!
